

WHAT DO THEY DO?

Read about each job below. Then answer the questions. Answer the last two questions in cursive writing.

My name is Mark. I am a welder. I use hot torches to bend and shape metal. I put pipes in buildings and build frames for bridges. I also use hand tools to mold and shape metal. I need to wear a helmet, gloves, and safety glasses to protect myself from sparks and heat. Sometimes I work inside and other times I work outside. I use math in my job to measure temperature and make metal parts the correct size for the job.

My name is Lisa. I am a lab technician. I work with microscopes and slides. I test blood and body fluids for diseases. I work with doctors at a clinic or hospital. I must type in the correct results for each test I run. I wear gloves to protect myself while I work. I help people figure out if they are sick and what kind of medicine will make them feel better.

Now answer the questions. Circle the correct answer.

1. Who works both outside and inside? Mark Lisa
